"Outstanding Security Product" AV-Comparatives, January 2022 "Outstanding scores in independent lab tests and our web protection tests" PC Mag, August 2021 Malicious software is designed to damage, destroy, or exploit devices, services or network infrastructure, leading to financial loss. You're continuously exposed to phishing websites that can steal your credit card info when shopping online. Exploits usually take advantage of a security flaw or vulnerability in an operating system, typically for malicious purposes, such as installing malware. Scam websites are designed by hackers to steal your sensitive financial data. When you write your personal information into a sign-up form that mimics a legitimate website, the data is in the wrong hands. Cybercriminals use this form of malware that hides on your device and steals its computing resources to mine for valuable cryptocurrencies like Bitcoin, degrading device hardware. Virus Scanning and Removal Powerful scan engines ensure real-time detection and removal of all malware, from viruses, worms and Trojans, to ransomware, zero-day exploits, rootkits and spyware. Real-time Threat Detection Bitdefender Antivirus Free for Windows uses behavioral detection to closely monitor your active apps. When it detects anything suspicious, it takes instant action. Keeps your device safe from e-threats Monitors apps behavior and instantly takes actions in event of suspicious activity Identifies exploits that might compromise your system and blocks any apps that could use them to their advantage Detects & blocks websites that masquerade as trustworthy so they can steal sensitive data such as passwords or login credentials. Uncovers scam attempts when browsing and warns you to steer away from shady websites. You can easily install the new Bitdefender Antivirus Free for Windows. Download and run the installation file, as the installation process will be seamless. Don't worry, we will guide you through every step. Bitdefender Antivirus Free for Windows uses the same Bitdefender technologies considered the best in the industry, as proven by the last decade of independent test scores. Easy to install and use, Bitdefender Antivirus Free reacts instantly to cyber threats with no compromise to your computer's performance. Bitdefender Antivirus Free is a free antivirus software especially designed to protect your Windows PC. Quick to install and light on computer resources, it is good for gaming, image and video editing, and resource-intensive applications. Windows 11 lets you run the antivirus program of your choosing, and Bitdefender Antivirus Free for Windows is the perfectly optimized option if you need a powerful antivirus software loaded only with the bare-bones protection features that every computer needs. Bitdefender Antivirus Free for Windows is a free antivirus software especially designed to protect Windows computers. Need protection on more operating systems?
